Marine Advisory/Warning: *None*	Marine Advisory/Warning: *None*	Marine Advisory/Warning: *None*

Weather Discussion:

Slight/moderate-haze may be noticeable across our area during this (Friday) afternoon and a patch of Saharan dust could temporarily create moderate-haze during Saturday morning, reducing visibility and air quality…*Take the necessary precautions*. Weak tropical waves are expected to increase the chance of shower activity across St. Vincent and the Grenadines (SVG) by Saturday, with isolated thunderstorms during Sunday and Monday.

Gentle-moderate (15 - 25km/h) breeze across our islands could become occasionally fresh (~ 30km/h) and wind directions vary between northeast and east southeast in some locations.

Sea conditions are slight-moderate in open water, with swell heights ranging 0.5m(1.5ft) to 1.0m(3ft) west of our islands and 1.2m(4ft) to 1.8m(6ft) east of our islands.
