Weather Discussion:

Weak unstable conditions are crossing the islands with a few scattered showers and isolated thunderstorms. A film of haze may be noticeable across our area at times. A tropical wave is expected to approach the islands by Tuesday, with periods of light rain and pockets of moderate showers with thunderstorm activity across St. Vincent and the Grenadines… *Residents and motorists in areas prone to flash-flooding and landslides or near rivers and streams should be alert.*

Gentle-moderate (15 - 25km/h) northeasterlies turn south-southeasterly during Tuesday, as a tropical wave crosses the islands and speeds occasionally reduce to light (5 - 10km/h) breeze with little cooling-effect…*Be Aware*…Speeds increase (20 - 30km/h) again by late Tuesday.

Sea conditions are slight-moderate in open water, with swells near 0.5m(1.5ft) west of our islands and ranging 1.2m(4ft) to 1.5m(5ft) east of our islands.
