January 14th**

Mostly fair and breezy. Slight chance of showers

Weather
Advisory/warning

None

Seas: moderate 1.5m to 2.5m / 5ft to 8ft

Marine
Advisory
Exercise caution

Weather Discussion:

Occasional scattered light to moderate showers are forecast across SVG on Thursday (today), and into the weekend as a shear line dominates the weather pattern across the islands. Model guidance is indicating 1 inch of accumulated rainfall by Saturday night. Sunday should be mostly fair.

Winds will blow generally from the east north east (ENE) at 20km/h to 35km/h, allowing for breezy conditions. Seas are forecast to be moderate in open waters with swells ranging between 1.2m-1.5m on the western coasts and 2.0m – 2.5m on the eastern coasts. Small craft operators and sea bathers should continue to exercise caution for above normal northerly swells. No significant haze intrusion is forecast.
