**Wednesday
November 15th**

Cloudy with a few light showers.

Weather
Advisory/warning
None

Seas: moderate 1.5m to 2.0m / 4ft to 7ft

Marine
Advisory/Warning:
None

Weather Discussion:

Pockets of showers/light rain, fresh to strong breeze and moderate sea conditions will continue across Saint Vincent and the Grenadines for the remainder of the day due to trailing instability, and a building Atlantic high pressure system. By tonight, most of the shower activity should be to the south. A fluctuation in moisture is likely for the upcoming days (Monday through Wednesday), with model guidance indicating the highest chance of some showers around Tuesday night into Wednesday.

Wind speeds will decrease to approximately 20km/h-35km/h by Monday, allowing for occasional breezy conditions. Seas will remain generally moderate with 2.5m swells gradually decreasing to 2.0m. No significant haze intrusion is forecast.
