Generally cloudy and breezy with a high chance of showers and isolated thunderstorms

Weather Advisory
Be alert

Seas: moderate 1.5m to
2.0m / 4ft to 7ft

Marine
Advisory/Warning:
None

Weather Discussion:

Partly cloudy skies with a few brief scattered showers are anticipated for Thursday across Saint Vincent and the Grenadines. Model guidance is indicating the slight possibility of isolated thunderstorms. A gradual increase in moisture will allow for a few scattered showers along Friday, and by Friday night /Saturday, moderate showers and isolated thunderstorms are likely. This instability could be accompanied by gusty winds and consequently the deterioration of seas.

Easterly trades at 15km/h-30km/h is forecast to become strong over the weekend to roughly 20km/h- 40km/h. Seas will be slight to moderate in open waters (1.0m-1.5m) on Thursday, becoming generally moderate (1.5m-2.0m) from Friday. There will be no significant haze intrusion.
