Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 2.0m / 3ft to 6.5ft

Marine
Advisory/Warning:
None

Weather Discussion:

Occasional cloudy skies and a few showers continue across St. Vincent and the Grenadines (SVG). Moisture levels could increase during Tuesday with a few showers. Unstable conditions could support scattered showers and a chance of isolated thunderstorms during Wednesday. Meanwhile, varying concentrations of Saharan dust could create hazy conditions across our area by Tuesday.

Moderate-fresh (25 - 35km/h) breeze near 38km/h Monday morning and directions vary from east north-east to east south-east, decreasing (~25km/h) by Wednesday.

Sea conditions are slight to moderate in open water, with swells ranging 0.5m - 1.2m west of our islands and 1.2m - 2.0m east of our islands. Swell heights temporarily rise (1.2m - 2.5m) on Monday...*Small craft operators and sea bathers should exercise caution for above normal swells and occasional gusty winds.*
