Weather  
Advisory/Warning:  
*None*

Seas: Slight to moderate  
1.2m to 1.5m / 3ft to 5ft

Marine  
Advisory/Warning:  
*None*

**Friday**  
**March 22<sup>nd</sup>**

Partly cloudy, a few showers & a film-haze

Weather  
Advisory/Warning:  
*None*

Seas: Slight to moderate  
1.0m to 1.5m / 3ft to 5ft

Marine  
Advisory/Warning:  
*None*

## Weather Discussion:

On the south-western edge of the Atlantic High Pressure System, cloud patches occasionally converge with a few showers across St. Vincent and the Grenadines (SVG). Varying concentrations of Saharan dust continue to create a film/slight-haze across our area and possibly thinning-out by Thursday night.

Moderate-occasionally fresh (20 - 30km/h) breeze vary between north-east and east south-east across SVG, temporarily becoming gentle (~15km/h) on Thursday.

Sea conditions are slight to moderate in open water, with swells near 1.2m west of our islands and near 2.0m east of our islands...*Small-craft operators and sea-bathers should continue to exercise caution for above normal sea-swells.* Swell heights are gradually falling as wind-speeds decrease and could range 1.2m - 1.5m across our islands by Wednesday evening.
