Advisory/Warning:
None

**Monday
March 25th**

Partly cloudy
*Night...*becoming cloudy,
a few showers

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 1.5m / 3ft to 5ft

Marine
Advisory/Warning:
None

Weather Discussion:

On the south-western edge of the Atlantic High Pressure System, low-level moisture is converging south of our islands to increase the chance of showers. Weak unstable conditions could maintain a few scattered showers across St. Vincent and the Grenadines (SVG) later today and Saturday. Shower activity is expected to decrease Saturday night, until a few showers cross our islands again overnight Monday. No significant dust concentration is expected over the next few days, but a thin film may be noticeable across our area at times.

Gentle-moderate (15 - 25km/h) north-easterly trades occasionally increase to fresh (up to 38km/h) across our islands and directions turn east south-easterly by Sunday.

Sea conditions are slight to moderate in open water, with swells ranging 0.5m - 1.2m west of our islands and 1.2m - 1.8m east of our islands.
