**Saturday
March 9th**

Fair-partly cloudy, isolated showers

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.2m to 2.0m / 4ft to 6.5ft

Marine
Advisory/Warning:
None

Weather Discussion:

On the south-western edge of the Atlantic High Pressure System, a few showers could converge across St.Vincent and the Grenadines (SVG) by late Thursday. Weak unstable conditions could maintain a few showers and possibly isolated thunderstorms across our islands during Friday, decreasing by Saturday. Varying concentrations of Saharan dust could create a film/slight-haze across our area during Friday.

Moderate-occasionally fresh (20 - 30km/h) north-easterly trades across our islands, turn east south-easterly by early Thursday.

Sea conditions are moderate in open water, with swells near 1.5m west of our islands and ranging 1.5m - 2.0m east of our islands. Swell heights could fall(slightly) during Thursday, with slight-moderate sea conditions ranging 1.2m - 2.0m across our islands.
