Weather  
Advisory/warning:  
None

Seas: slight to moderate  
1.0m to 2.0 m / 4ft to 7ft

Marine advisory/warning  
None

## Weather Discussion:

Fair to partly cloudy conditions will persist across SVG within the next 24 hours. Models suggest that a favourable upper level could provide support to unstable conditions on Wednesday. Therefore, the possibility of showers increases. In addition, a layer of Saharan air mass will also continue to reduce visibility and air quality within the next 48 hours. Residents and small craft operators should continue to exercise caution for reduced visibility and air quality due to Saharan dust haze.

Moderate to fresh (20-30km/h) easterly to east north easterly trades will continue to cross the islands. A slight decrease (25km/h) in wind speeds is expected on Wednesday. Seas will remain slight to moderate in open waters with swells ranging between 1.0m-2.0m.
