

72 Hours Weather Outlook

Date: February 3rd, 2024 (12noon)

**Sunday
February 4th**

Partly cloudy-cloudy & hazy, chance of a few showers

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 1.5m / 3ft to 5ft

Marine Advisory:
Northerly swells-occasional surf & rip currents

**Monday
February 5th**

Partly cloudy & slightly hazy, chance of a few showers

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 1.5m / 3ft to 5ft

Marine
Advisory/Warning:
None

**Tuesday
February 6th**

Partly cloudy, slightly hazy, breezy at times, isolated showers

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 1.5m / 3ft to 5ft

Marine
Advisory/Warning:
None

Weather Discussion:

Varying concentrations of Saharan dust continue to create hazy conditions and the associated dry air limits shower activity across St. Vincent and the Grenadines (SVG). Cloud patches are likely to bring a few showers across our islands by Sunday.

Light-gentle (less than 20km/h) south-easterly winds across our islands could become calm at times. Wind speeds gradually increase Sunday, with moderate-fresh (25 - 35km/h) breeze across our islands overnight Monday and during Tuesday.

Marine conditions are slight to moderate in open water, with swells ranging 0.5 - 1.0m on western coasts and near 1.5m on eastern coasts. However, an area of low Pressure in the Atlantic Ocean is propagating long-period northerly swells reaching our islands...*Small-craft operators and sea-bathers should exercise extreme caution for occasional breaking wave action (surf) and rip currents.*
