

# 72 Hour Weather Outlook

Date: September 19<sup>th</sup>, 2024 (12 noon)

**Friday  
September 20<sup>th</sup>**

Mostly fair and warm; low chance of showers with possible isolated thunderstorms.

Weather Advisory  
None

Seas: smooth to moderate  
0.5 m to 1.5m / 2ft to 5ft

Marine advisory  
None

**Saturday  
September 21<sup>st</sup>**

Mostly fair and warm; low chance of showers with possible isolated thunderstorms.

Weather Advisory  
None

Seas: smooth to moderate  
0.5 m to 1.5m / 2ft to 5ft

Marine advisory  
None

**Sunday  
September 22<sup>nd</sup>**

Mostly fair and warm; moderate chance of showers and isolated thunderstorms.

Weather Advisory  
None

Seas: smooth to moderate  
0.5 m to 1.5m / 2ft to 5ft

Marine advisory  
None

## Weather Discussion:

Unstable conditions emanating from a low pressure system in the Central Atlantic (remnants of Gordon) linger across the islands. For the remainder of Thursday, mostly fair and warm conditions across SVG could be interrupted by isolated showers and thunderstorm activity due to a light wind regime coupled with day time heating.

Dry mid- upper levels over the weekend will result in sparse, brief showers, but the possibility of isolated thunderstorms exists as an upper level trough meanders close to the island chain.

Winds will gradually increase in speed over the weekend, blowing generally from the east south east (ESE) at 10mph – 19mph (15km/h-30km/h). Seas are forecast to be smooth to moderate in open waters with swells ranging between 0.5m-1.0m on the western coasts, and 1.0m-2.0m on the eastern coasts. There will be no significant haze intrusion within this forecast period.
