Weather Discussion:

Fair conditions will be interrupted by a few cloudy spells with showers for the remainder of the day/ night. Similar weather conditions are anticipated into Tuesday. The chance of showers increases on Wednesday and Thursday as low level instability coupled with favourable upper levels begin to dominate the weather pattern across the region.

Winds are forecast from east to east north east (E-ENE) at (20km/h-30km/h) Seas will be moderate in open waters, with swells peaking at 1.5m on the western coasts and 2.0m on the eastern coasts. There will be no significant haze intrusion within the forecast period.
