Weather
Advisory/warning
None

Seas: smooth to slight
0.5m to 1.0m/2ft to 3ft

Marine
Advisory/Warning:
None

Weather Discussion:

A few scattered showers with the chance of isolated thunderstorms are forecast as the day progresses due to a shear line. After which, a tropical wave should be in the vicinity. No significant shower activity is associated with this wave due to dry air, however chance of a few scattered showers and isolated thunderstorms are likely behind the wave on Friday.

Gentle to moderate east north-east (ENE) trades (10km/h-25km/h) will move across the islands, becoming east south-east (ESE) behind the wave around Friday. Seas will be generally smooth to slight in open waters with swells ranging between 0.5m – 1.0m. No significant haze intrusion is forecast within this forecast period.
