July 19th**

Occasionally cloudy and hazy, scattered showers & isolated thunderstorms

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0 to 1.5m/ 3ft to 5ft

Marine
Advisory/Warning:
None

Weather Discussion:

Partly cloudy skies, a few showers and a chance of isolated thunderstorm activity can be expected across St. Vincent and the Grenadines (SVG) today. Saharan dust concentrations across our area are thinned to slight haze, possibly thickening tonight and moderate haze can be expected by Tuesday. Occasionally, weak pulses of low-level moisture on the southern edge of the Atlantic High Pressure System can trigger showers and isolated thunderstorms. Low-level moisture converging across our islands by Wednesday, could result in occasional cloudy skies with scattered showers and isolated thunderstorms continuing into the night.

Gentle to moderate (15 - 25km/h) east south-easterly winds could gusts near 35 km/h and directions temporarily turn east north-easterly during Tuesday night and Wednesday morning.

Marine conditions are slight to moderate, with swells ranging 1.0m to 1.5m. A fall in swell heights may be noticeable during Tuesday, nearing 0.5m on western coasts and 1.2m on eastern coasts of our islands with slight marine conditions.
