July 7th**

Partly cloudy to cloudy,
scattered showers and
isolated thunderstorms

Exercise caution

Seas: Slight to moderate
1.0 to 2.0m/ 3ft to 6.5ft

Marine
Advisory/Warning:
None

Weather Discussion:

Saharan dust concentrations maintain moderate haze across St. Vincent and the Grenadines (SVG) and partly cloudy skies could bring isolated showers. Hazy conditions should thin out across SVG during Thursday, with occasional low-level clouds bringing a few showers. Cloudiness is expected to increase on Friday as another tropical wave approaches the islands, with scattered showers and isolated thunderstorms. **Residents and motorists in areas prone to flooding and landslides or near rivers and streams should be alert.**

Moderate to fresh (25 to 35km/h) east north-easterly trades with occasional gusts near 40 km/h are likely across our islands and wind direction could turn south-easterly by Thursday night.

Marine conditions are slight to moderate ranging 1.0m to 2.0m across SVG. Swell heights along eastern coasts could occasionally fall to near 1.5m during Thursday and late Friday.
