None

Weather Discussion:

Tonight, expect partly cloudy skies and breezy conditions. A few light showers are forecast as a tropical wave approaches the islands. On Monday and Tuesday, the chance of showers increases as the wave affects the islands. There is a slight chance of isolated thunderstorms. A decrease in cloud cover and the chance of shower activity are expected on Wednesday, before another tropical wave approaches the islands to affect Wednesday night/Thursday.

Fresh east north east to east winds (ENE-E at 20km/h-40km/h) is forecast. Gusty winds are likely near shower. Seas will be moderate in open waters with swells ranging between 1.5m-2.0m. In addition, haze intrusion is forecast for around Wednesday.
