Weather Discussion:

Tonight, expect a few brief scattered showers from time to time into early Friday morning. Moderate low level moisture will be across Saint Vincent and the Grenadines, gradually increasing around Sunday. In addition, mid-levels will be dry, slightly increasing in moisture around Sunday. Therefore, mostly fair conditions are forecast with brief isolated showers on Friday and Saturday, with the chance of a few showers increasing around Sunday.

Gentle to moderate winds will blow from the east to east north east (E-ENE) at approximately 15km/h to 30km/h, increasing in speed to roughly 35km/h on Saturday, allowing for breezy conditions at times. Seas will be slight to moderate in open waters with swells peaking at 1.0m on the western coasts and 2.0m on the eastern coasts. A deterioration is expected on the eastern coasts to approximately 2.5m late Friday/Saturday. Slight haze intrusion is possible Sunday night.
