Cloudy and breezy, with showers and a chance of isolated thunderstorms

Exercise caution

Seas: Slight to moderate
1.0m to 2.0 m/ 3ft to 6.5ft

Marine
Advisory/Warning:
None

Weather Discussion:

The tail end of a tropical wave is affecting SVG. Pockets of light to moderate showers, periods of light rain and thunderstorm activity is expected to persist across SVG on Wednesday afternoon. A flash flood watch remains in effect for SVG until 6pm today. **Residents and motorists in areas prone to flooding and landslides or near rivers and streams should be prepared.** Conditions could improve from Thursday afternoon until around mid Saturday when another tropical wave is expected to affect our islands.

Gentle to fresh(15-30km/h) east south easterly trades could turn ENE late Wednesday before reverting on Thursday and increasing to occasionally(near 40 km/h).

Marine conditions would be slight to moderate ranging between(0.5m to 2.2m/ 1.6ft to 7ft) across the next 3 days

Meteorological Forecaster: Gregory Cato.
