

72 Hour Weather Outlook

Date: July 28th, 2024 (12 Noon)

**Monday
July 29th**

Fair to occasionally cloudy and slightly hazy and breezy at times with isolated showers

**Weather
Advisory/Warning
None**

Seas: slight to moderate
1.0 m to 2.0m / 4ft to 7ft

**Marine
Advisory/Warning
None**

**Tuesday
July 30th**

Fair to partly cloudy with isolated showers

**Weather
Advisory/Warning
None**

Seas: slight to moderate
1.5 m to 2.0m / 5ft to 7ft

**Marine
Advisory/Warning
None**

**Wednesday
July 31st**

Sunny and warm; possible localised showers during mid afternoon

**Weather
Advisory/Warning
None**

Seas: slight to moderate
1.5 m to 2.0m / 5ft to 7ft

**Marine
Advisory/Warning
None**

Weather Discussion:

Sunny and warm conditions are likely across the remainder of Sunday across our islands as the Atlantic high pressure system dominates the weather pattern across SVG. Weak pulses could instigate a few brief passing showers from shallow cloud patches along Monday and Tuesday. A light wind regime would promote warm conditions on Wednesday. A few localised showers are also possible across mid afternoon.

Light and Gentle (<20 km/h) east south easterly trades are crossing the islands. A temporary increase (15-30km/h) is expected from Monday with a shift to east south easterly. Wind speeds will begin to decrease from Tuesday as an approaching system is expected to track near or over the Lesser Antilles and away from SVG. Seas are slight to moderate in open waters with swells peaking near 1.0m on western coasts, and 1.5m-2.0m on the eastern coasts. In addition, Saharan dust haze concentrations would gradually thin out and improve by Monday evening improving visibility and air quality across our islands.
