**Saturday
June 10th**

Partly cloudy with a chance of isolated showers

Weather
Advisory /Warning:
None

Seas: slight to moderate
1.0 to 1.5m / 3.0 to 5.0ft

Marine Advisory/Warning:
None

Weather Discussion:

An approaching tropical wave is expected to affect the islands later today into tomorrow, resulting in occasional cloudy skies with light to moderate showers and a slight chance of isolated thunderstorms. Thereafter, improvement in the weather conditions can be expected before another tropical wave approaches by late Sunday.

Occasional breezy conditions will persist during the next few days with winds from the east to east northeast ranging between 15 km/h to 30 km/h. Seas will remain slight to moderate in open waters with swells ranging between 1.0 m to 1.5 m.

The layer of Saharan dust haze across the islands is forecast to gradually diminish, allowing for improved visibility and air quality.

Meteorological Forecaster: *Mr. Billy Jeffers*
