

# 72 Hours Weather Outlook

**Date: February 12th 2025 (12noon)**

**Thursday  
February 13<sup>th</sup>**

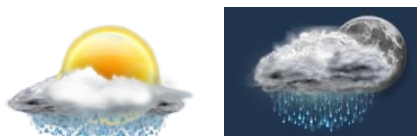

Occasionally cloudy,  
breezy, scattered  
showers & a film of haze

Weather  
Advisory/Warning:  
*None*

Seas: Moderate to rough  
2.0m to 3.2m / 6.5ft to 10.5ft

Marine Warning:  
*Breaking wave action,  
above normal swells &  
occasional gusty winds*

**Friday  
February 14<sup>th</sup>**

Partly cloudy-cloudy,  
breezy & a few scattered  
showers

Weather  
Advisory/Warning:  
*None*

Seas: Moderate to rough  
1.8m to 3.0m / 6ft to 10ft

Marine Advisory:  
*Above normal swells &  
occasional gusty winds*

**Saturday  
February 15<sup>th</sup>**

Occasionally cloudy,  
breezy & scattered  
showers

Weather  
Advisory/Warning:  
*None*

Seas: Moderate to rough  
1.8m to 3.0m / 6ft to 10ft

Marine Advisory:  
*Above normal swells &  
occasional gusty winds*

## Weather Discussion:

The Atlantic High Pressure System remains the dominant feature across the islands, with cool brisk winds bringing clouds and scattered showers across St. Vincent and the Grenadines (SVG). Saharan dust could create a film of haze across our area at times.

Fresh-strong (30 - 40km/h) cool breeze continues across our islands, with wind directions ranging from northeast to easterly in some locations. Wind speeds could become gusty/squally ~45km/h especially near showers...*Be Alert!*

Over the next few days, small-craft operators and sea bathers should be extremely cautious for above normal swells and occasional gusty winds. Sea conditions are moderate to rough in open water, with swells ranging 1.5m to 2.0m west of our islands and 2.0m to 3.2m east of our islands. Rough sea conditions are likely across SVG during Thursday...*Mariners and residents near coasts should be prepared, as breaking wave action could become dangerous.*
