*Above normal swells*

Seas: Moderate in open water  
1.5m to 2.5m / 5ft to 8ft

Marine Advisory:  
*Occasional gusty winds &  
above normal swells*

## Weather Discussion:

On the southwestern edge of the Atlantic High Pressure System, occasional brisk winds are bringing cloud patches with light-moderate showers across St. Vincent and the Grenadines (SVG). Saharan dust concentrations could create slight-haze across our area at times.

Moderate-fresh (25 - 35km/h) breeze continues across our islands, with wind directions ranging from east northeast to east southeast in some locations. Wind speeds could occasionally increase (35 - 40km/h) overnight Thursday and during Friday...*Be Alert!*

Sea conditions are currently moderate in open water, with swells near 1.5m west of our islands and ranging 2.0m to 2.5m east of our islands. Small-craft operators should be prepared for occasional gusty winds, which are likely to agitate sea conditions overnight Thursday and during Friday.
