Be Alert

Seas: Moderate in open water
1.5m to 2.0m / 5ft to 6.5ft

Marine Advisory: *Exercise Caution...occasional gusts & swells (1.0 - 2.0m by afternoon)*

Weather Discussion:

Weak unstable conditions are crossing the islands, as a few showers alternate with hazy conditions across St. Vincent and the Grenadines (SVG) this evening and Sunday. A tropical wave is expected to near our islands on Monday, bringing unstable conditions, with moderate-heavy showers and thunderstorm activity peaking overnight and early Tuesday...*Residents and motorists in areas prone to flooding and landslides or near rivers and streams should be alert...Patches of Saharan dust could create slight/moderate-haze across our area at times.*

Moderate-occasionally fresh (20 - 30km/h) north-easterlies across our islands could occasionally turn east south-easterly. Wind speeds are likely to increase (35 - 45km/h) between Monday night and Tuesday morning, with stronger gusts across the Grenadines...*Be Alert!*

Sea conditions are slight to moderate in open water, with swells ranging 0.5m - 1.0m west of our islands and 1.0m - 2.0m east of our islands...*Small craft operators and sea bathers should exercise caution for rising swells (above normal) and strong gusty winds overnight Monday and Tuesday morning...Slight to moderate (1.0m - 2.0m) conditions return Tuesday afternoon.*
