Cloudy, moderate-
heavy showers &
thunderstorms

Weather Advisory:
Remain Alert

Seas: Slight
0.5m to 1.2m/ 1.5ft to 4ft

Marine
Advisory/Warning:
None

Weather Discussion:

Unstable conditions (due to Inter-Tropical Convergence Zone) are expected overnight, with scattered showers and isolated thunderstorms across St. Vincent and the Grenadines (SVG). During Monday morning, occasional cloudy skies could maintain moderate-heavy showers and thunderstorms across parts of SVG...**Residents and motorists in areas prone to flooding and landslides or near rivers and streams should be alert.** Unstable conditions linger during Tuesday with clouds increasing again during the evening. Showers and thunderstorm activity are likely to peak across SVG during Wednesday evening into the night...**Remain alert.**

Gentle to moderate (10 - 25km/h) breeze could occasionally increase near 30km/h, varying in direction between east north-east and south-east.

Marine conditions are slight to moderate with swells ranging 0.5m to 1.5m, gently falling near 1.2m on eastern coasts of our islands by Monday afternoon with slight conditions. Varying concentrations of Saharan dust occasionally create thin film/slight haze across our area.

Forecaster: Joan Mc Donald
