1.0m to 1.5m / 3ft to 5ft

Marine
Advisory/Warning:
None

Seas: Slight
0.5m to 1.2m / 2ft to 4ft

Marine
Advisory/Warning:
None

Weather Discussion:

The Atlantic high pressure system will dominate the weather conditions across SVG within the next 3 days. Although sporadic episodes of isolated showers are anticipated, generally warm conditions are likely to continue as the nature of these showers are expected to be short lived.

Gentle to fresh (15 – 30km/h) south-easterly trades will cross our islands before shifting to east north easterly from Friday. A decrease (10-25km/h) in wind speeds is also forecast as well.

Marine conditions are slight to moderate with swells ranging 1.0m to 1.5m across our islands, gradually falling to near 1.2m by Saturday. No significant haze intrusion is anticipated within this forecast period.

Forecaster: Gregory Cato
