Weather Discussion:

Scattered showers and isolated thunderstorms are forecast today into early Saturday as a tropical wave begins to affect Saint Vincent and the Grenadines (SVG). After which, a decrease in cloud cover is forecast with mostly fair and warm conditions expected for Sunday.

Moderate winds will blow from the east north east (ENE) to east south east (ENE-ESE) at 15km/h-30km/h, and gradually increasing (~35km/h) around Saturday into Sunday. Also, winds could become gusty near showers. Seas will be slight to moderate in open waters (1.0m-1.5m). A thin film of haze is expected over the weekend.
