Weather
Advisory/warning
none

Seas: slight to moderate
1.0m to 2.0 m / 3ft to 6ft

Marine advisory/warning
none

Weather Discussion:

There is a moderate chance of a few occasional showers across SVG during the next 72 hours as trade winds transport low level moisture across the island chain. Saharan dust intrusion has reduced significantly, with only a thin film of haze possible during the next few days.

Easterly (E) winds at 15km/h-30km/h will move across the island chain. Seas will be slight to moderate in open waters with swells peaking at 1.0m on the western coasts and ranging between 1.5m-2.0m on the eastern coasts.
