September 8th**

Partly sunny-cloudy, possible showers & thunderstorms

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 2.0m/ 3ft to 6.5ft

Marine
Advisory/Warning:
None

Weather Discussion:

Weak unstable conditions across St. Vincent and the Grenadines (SVG) continue with a few showers and the isolated thunderstorms today and tonight. Mostly sunny skies are expected on Thursday. 'Tropical Storm Lee' is nearing Hurricane strength and is expected to be an extremely dangerous/major hurricane passing near the Leeward Islands by Friday, creating unstable conditions which could trigger a few showers/thunderstorms across St. Vincent. A thin-film of Saharan dust across our area, becomes negligible by Friday with good visibility.

Gentle to moderate (15 - 25km/h) breeze vary between east north-east and east south-east, decrease to light winds by Thursday night and calm Friday creating episodes of heat stress.

Marine conditions are slight to moderate with swells ranging 1.0m to 1.5m across our islands, temporarily rising near 2.0m on eastern coasts during Friday night.

St. Vincent and the Grenadines Meteorological Services (SVG MET Services) will monitor developments in the Tropical Atlantic Ocean and issue advisories/updates as necessary.
