November 15th**

Partly cloudy with isolated showers

Weather Advisory/Warning:
None

Seas: slight to moderate
1.0m to 1.5m/ 3ft to 5ft

Marine Advisory/Warning
None

Weather Discussion:

Sporadic light and short lived showers are likely across this forecast period as shallow moisture patches cross our islands. Fair to occasionally cloudy skies are anticipated as the Atlantic high pressure system is expected to remain dominant across SVG.

Moderate to fresh (~20-30 km/h) easterly to east north-easterly trades are crossing our islands. A slight decrease (~20 km/h) is expected from Friday with a shift to east south easterly. Seas are moderate in open water with swells ranging between 1.5m and 2.0m.

Marine users should exercise caution for above normal sea swells. Sea conditions should improve from Friday as wind speeds decrease. In addition, Slight Saharan dust haze concentrations will be visible across our islands within the next few days.
