November 21st**

Partly cloudy to cloudy with isolated showers and possible thunderstorms

Weather Advisory/Warning:
None

Seas: slight to moderate
1.0m to 1.5m/ 3ft to 5ft

Marine Advisory/Warning:
None

Weather Discussion:

Unstable conditions associated with a trough accompanied by a broad area of moisture will generate occasional cloudy skies and trigger some light to moderate showers across SVG within the next few days. There is also a low to medium chance of isolated thunderstorms.

Gentle to moderate (15- 25km/h) easterly to east north-easterly trades are crossing our islands, increasing (~35 km/h) temporarily during Tuesday night. Light wind speeds are anticipated on Friday. Seas are slight moderate in open water with swells peaking to 1.0m on western coast and near 1.8m on eastern coasts. Swell heights should fall to 1.5m on eastern coasts from Thursday. Slight Saharan dust haze concentration should be noticeable on Wednesday.
