

72 Hour Weather Outlook

Date: July 1st, 2026 (12 Noon)

**Thursday
July 2nd**

Fair to partly cloudy slightly hazy and breezy with a few isolated showers

Weather Advisory/Warning
None

Seas: moderate
1.5 m to 2.0m / 5ft to 7ft

Marine Advisory
Exercise caution

**Friday
July 3rd**

Cloudy and breezy with showers and possible isolated thunderstorms

Weather Advisory/Warning
None

Seas: moderate
1.5 m to 2.0m / 5ft to 7ft

Marine Advisory
Exercise caution

**Saturday
July 4th**

Partly cloudy to cloudy slightly hazy and breezy with showers

Weather Advisory/Warning
None

Seas: moderate
1.5 m to 2.0m / 5ft to 7ft

Marine Advisory
Exercise caution

Weather Discussion:

Relatively fair, hazy and breezy conditions can be expected across our islands for the remainder of Wednesday with similar conditions likely for most of Thursday. Slight Saharan dust haze concentrations are currently crossing our islands with a decrease expected on Friday before returning on Saturday. Meanwhile, a tropical wave should affect SVG on Friday. Lingering instability could allow for a few showers along Saturday.

Moderate to fresh (~20-35 km/h) easterly to east south easterly trades are crossing the islands. A shift to east north easterly is expected on Friday with an increase (~40km/h) on Saturday. Consequently, seas should remain moderate in open water with swells peaking near 1.5 m on western coasts and near 2.0 m on eastern coasts. **Small craft operators and sea bathers should exercise caution for above normal sea swells and occasional gusty winds.**
