September 26th**

Cloudy, slightly hazy and breezy at times with showers and possible thunderstorms

Weather Advisory/Warning
None

Seas: slight to moderate
1.0 m to 1.5m / 3ft to 5ft

Marine Advisory/Warning
None

Weather Discussion:

A favourable upper level environment will remain in place within the next three days. As a result, fair conditions could at times be interrupted by showers. The chance of moderate showers with possible thunderstorm activity increases into Saturday morning as unstable conditions is forecast across our islands. Meanwhile, slight Saharan dust haze concentrations may be noticeable across our islands as Friday progresses and along Saturday.

Gentle to moderate (~15-25 km/h) easterly to east south easterly trades are crossing our islands, but should increase (~15-30 km/h) from Thursday. A temporary shift to east north easterly is expected on Friday. Seas should remain slight to moderate in open water with swells heights peaking to 1.0 m on western coasts and up to 1.5 m on eastern coasts.
