

72 Hours Weather Outlook

Date: August 13th 2026 (12noon)

**Friday
August 14th**

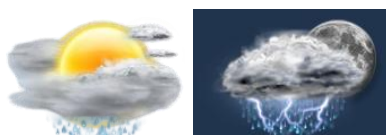

Partly cloudy,
occasional strong winds,
isolated showers
& moderate/thick-haze

Weather Advisory:
*Limited visibility, poor air
quality due to Saharan
dust-haze & gusty winds*

Seas: Moderate in open water
1.5m to 2.5m / 5ft to 8ft

Marine Advisory:
*Exercise caution for above
normal swells, gusty winds
& moderate/thick-haze*

**Saturday
August 15th**

Partly cloudy-cloudy,
breezy at times,
scattered showers
& thunderstorms

Weather Advisory:
*Be alert for possible
flash-flooding*

Seas: Moderate to rough
1.8m to 3.0m / 6ft to 10ft

Marine Warning:
*Be prepared for
above normal swells &
occasional strong winds*

**Sunday
August 16th**

Occasionally cloudy,
occasional strong winds,
scattered showers
& thunderstorms

Weather Advisory:
*Be alert for possible
flash-flooding
& gusty winds*

Seas: Moderate to rough
1.5m to 2.7m / 5ft to 9ft

Marine Warning:
*Be prepared for
above normal swells &
occasional strong winds*

Weather Discussion:

Saharan dust-haze and dry-air persist across our area, limiting showers and visibility, while creating poor air quality...*Take the necessary precautions.* Dust-haze is likely to thin out by Saturday, as a tropical disturbance approaches with scattered showers and thunderstorms possible across St. Vincent and the Grenadines (SVG)...*Residents and motorists in areas prone to flash-flooding and landslides or near rivers and streams should be alert.*

Fresh-occasionally strong (30 - 45km/h) northeasterly winds across our islands could become temporarily light/gentle (10 - 15km/h) and directions turn south southeasterly during Saturday afternoon, as a tropical disturbance crosses the islands...*Be aware!*

Sea conditions are moderate in open water, with rising swells likely to range 1.5m(5ft) to 3.0m(10ft) across SVG by weekend...*Small-craft operators should be prepared for limited visibility in moderate/thick dust-haze, above normal swells and occasional gusty winds.*
