*None*

Seas: Moderate in open water  
1.8m to 2.5m /6ft to 8ft

**Marine Advisory:**  
*Occasional northerly  
swells...above normal  
& gusty winds*

## Weather Discussion:

On the southwestern edge of the Atlantic High Pressure System, occasional brisk winds could bring shallow clouds and a few/isolated showers across St. Vincent and the Grenadines (SVG). Saharan dust-haze concentrations vary across our area, possibly thickening tonight as a dense plume crosses south of the Grenadine Islands...*Be aware!*

Moderate-fresh (25 - 35km/h) breeze could occasionally become brisk/gusty (35 - 40km/h) across our islands and directions vary between northeast and east southeast...*Be aware!*

Sea conditions are moderate in open water with above normal swells ranging 1.2m(4ft) to 1.8m(6ft) west of our islands and 2.0m(6.5ft) to 2.5m(8ft) east of our islands...*Small-craft operators and sea-bathers should exercise caution for moderate/thick-haze creating poor visibility overnight Monday, as well as above normal swells and occasional gusty winds.*
