## Weather Discussion:

Moisture levels could gradually increase during Tuesday, with increasing cloud-cover and a few scattered showers across St. Vincent and the Grenadines (SVG). Meanwhile, occasional patches of slight/moderate-haze can be expected across our area.

Moderate-occasionally fresh (25 - 30km/h) breeze is expected across our islands, with directions varying from northeasterly to easterly in some locations.

Sea conditions are slight to moderate in open water, with swells ranging 0.5m (1.5ft) to 1.0m (3ft) west of our islands and up to 1.5m (5ft) east of our islands.
