Advisory/Warning:  
*None*

Seas: Slight to moderate  
0.5m to 1.5m /1.5ft to 5ft

Marine Advisory:  
*Occasional northerly swells  
along western coasts*

## Weather Discussion:

Moisture levels decreased and stable conditions are across the islands. Occasional shallow clouds could trigger a few/isolated showers across St. Vincent and the Grenadines (SVG).

Gentle-moderate (15 - 25km/h) cool breeze continues across our islands, temporarily increasing (~ 30km/h) during Sunday. Wind directions could vary from east northeast to east southeast in some locations.

Sea conditions are slight to moderate in open water, with swells ranging 0.5m (1.5ft) to 1.0m (3ft) west of our islands and up to 1.5m (5ft) east of our islands. Overnight (Friday), northerly swells are expected along western coasts of SVG, creating dangerous rip-currents...*Small-craft operators and sea-bathers should be alert and exercise caution.*
