occasional gusty winds*

Seas: Slight to moderate
1.2m to 2.5m/4ft to 8ft

Marine Advisory:
*Exercise caution for
above normal swells &
occasional gusty winds*

Weather Discussion:

Unstable conditions associated with a tropical wave could bring moderate-heavy showers and thunderstorms across St. Vincent and the Grenadines (SVG) during tonight and Sunday...*Residents and motorists in areas prone to flash-flooding and landslides or near rivers and streams should exercise caution...* Another tropical wave is expected to bring showers across SVG by Tuesday. Slight/moderate-haze may be noticeable across our area.

Moderate-fresh (25 - 35km/h) breeze across our islands could vary in direction between northeasterly and east southeasterly in some locations.

Sea conditions are slight-moderate and expected to range 1.2m (4ft) to 1.5m (4ft) west of our islands and 2.0m (6.5ft) to 2.5m (8ft) east of our islands...*Small-craft operators and sea-bathers should exercise caution for above normal swells and occasional gusty winds.*
