Advisory/Warning:**
None

Seas: Slight to moderate
1.2m to 2.0m/4ft to 6.5ft

Marine Advisory:
*Exercise caution for
above normal swells &
occasional gusty winds*

Weather Discussion:

A tropical wave is expected across the islands this evening, spreading scattered showers with thunderstorm activity across St. Vincent and the Grenadines (SVG). Thereafter, concentrations of Saharan dust could result in reduced visibility and moderate air quality across our area during Tuesday afternoon...*Take the necessary precautions.*

Moderate-fresh (20 - 35km/h) northeasterly trades across our islands could become especially gusty (~ 40km/h) across the southern Grenadine islands tonight...*Be aware.*

Sea conditions are slight-moderate in open water, ranging 1.0m (3ft) to 1.5m (5ft) west of our islands and 1.8m (6ft) to 2.5m (8ft) east of our islands...*Small-craft operators and sea-bathers should exercise caution for above normal swells and occasional gusty winds.*
