scattered showers,  
isolated thunderstorms  
& moderate-haze

Weather  
Advisory/Warning:  
*None*

Seas: Slight to moderate  
1.0m to 1.8m /3ft to 6ft

Marine  
Advisory/Warning:  
*None*

## Weather Discussion:

Concentrations of Saharan dust continue to create slight/moderate-haze across our area. Low-level moisture (cloudiness) could increase across St. Vincent and the Grenadines (SVG) by late Wednesday, bringing a few scattered showers and isolated thunderstorms.

Moderate-fresh (25 - 30km/h) breeze across our islands are expected to increase (~35km/h) temporarily, during Wednesday night and Thursday morning. Wind directions could vary between northeast and southeast in some locations.

Slight-moderate sea conditions across SVG, range 1.0m (3ft) to 1.2m (4ft) west of our islands and 1.8m (6ft) to 2.0m (6.5ft) east of our islands...*Small-craft operators and sea-bathers should continue to exercise caution for reduced visibility (poor) in moderate dust-haze, occasional gusty winds and above normal swells during Thursday.*
