Marine
Advisory/Warning:
None

**Thursday
November 13th**

Partly cloudy,
a few showers

Weather
Advisory/Warning:
None

Seas: Slight to moderate
1.0m to 1.5m / 3ft to 5ft

Marine
Advisory/Warning:
None

Weather Discussion:

The Atlantic High Pressure System is the dominant feature, with occasional breezy conditions pushing shallow clouds and isolated showers across St. Vincent and the Grenadines (SVG). Patches of Saharan dust continue to create a film/slight-haze across our area at times, clearing to good visibility by Thursday.

Fresh (30 - 35km/h) breeze across our islands reduce to moderate (20 - 25km/h) by Wednesday and directions vary between northeast and east southeast in some locations.

Sea conditions are slight to moderate in open water, with swells near 1.2m(4ft) west of our islands and ranging 1.5m(5ft) to 2.0m(6.5ft) east of our islands...*Small-craft operators and sea bathers should continue to exercise caution for above normal swells and occasional gusty winds. Swell heights are gradually falling, ranging {1.0m(3ft) to 1.5m(5ft)} across SVG by Thursday.*
