to Saharan dust-haze*

Seas: Slight to moderate  
1.0m to 1.8m / 3ft to 5ft

Marine Advisory:  
*Exercise caution for  
moderate-haze*

## Weather Discussion:

Showers and thunderstorm activity across St. Vincent and the Grenadines (SVG) gradually decrease this (Monday) evening...*Residents and motorists in areas prone to flash-flooding and landslides or near rivers and streams should remain alert.* During Wednesday, a patch of Saharan dust could gradually reduce visibility and air quality across our area...*Take the necessary precautions.* Meanwhile, a few showers are likely across SVG during this week.

Moderate-fresh (20 - 35km/h) breeze turns north north-easterly during Tuesday, then varying from north-east to east south-east across our islands during Wednesday and Thursday.

Slight-moderate sea conditions in open water, range 0.5m(1.5ft) to 1.0m(3ft) west of our islands and 1.5m(5ft) to 1.8m(6ft) east of our islands...*Small-craft operators and sea-bathers should exercise caution for occasional northerly swells creating breaking wave action on eastern coasts during Wednesday afternoon and reduced visibility by nightfall.*
