Weather Discussion:

Over the next few days, a few light showers are likely across St. Vincent and the Grenadines (SVG) as shallow clouds cross our islands. Fairly good visibility can be expected across our area.

Gentle-moderate (15 - 25km) breeze continues across our islands, with directions varying between north easterly and easterly in some locations. Wind speeds are likely to increase (30 - 35km) late Monday and during Tuesday.

Sea conditions are slight to moderate in open water, with swell ranging 0.5m to 1.0m west of our islands and ranging 1.5m to 1.8m east of our islands.
