

A FLASH-FLOOD WATCH is in effect for ST. VINCENT AND THE GRENADINES

Issued at 6pm, Monday 12th August, 2024

Moisture levels are elevated across St. Vincent and the Grenadines (SVG), associated with Tropical Storm (TS) Ernesto located near 16.0 N 57.5W at 5pm today. Bands of moisture feeding into TS Ernesto could cross our islands during Tuesday, supporting moderate-heavy showers with thunderstorm activity and fresh-occasional strong/high winds (30 - 50km/h) from the south...Be Alert!

Further rainfall accumulations of 75 - 100 mm (approximately 3 - 4 inches) with higher amounts across parts of SVG are possible within the next 24 hours.

Therefore, A Flash-Flood Watch is being issued for St. Vincent and the Grenadines from 6:00pm Monday 12th August 2024 until 6:00pm Tuesday 13th August 2024...**Residents and motorists in areas prone to flooding and landslides or near rivers and streams should be prepared.**

A Flood-Watch is issued when conditions are favourable and there exists the possibility of flooding during the watch period.

This flash-flood watch may be upgraded to a warning if conditions warrant.
