---

**SMALL CRAFT AND HIGH SURF ADVISORY IS IN EFFECT**  
**FOR ST VINCENT AND THE GRENADINES**

**Issued at 6:00 pm, Saturday 28<sup>th</sup> February, 2026**

The Small-craft and High Surf Advisory is extended for St Vincent and the Grenadines and its coastal waters **until 6:00 pm Tuesday 3<sup>rd</sup> March, 2026.**

A Small-Craft Advisory is issued when sustained winds of 37 to 46 km/h (23 to 29 mph) and/or sea swells of 2.5 to 3.0 meters (8 to 10 feet) are affecting or forecast to affect the marine area within the next 36 hours.

A High Surf Advisory is issued when breaking wave action is forecast to pose a threat to life and property within the surf zone during the next 36 hours.

Large waves and dangerous rip-currents will create unsafe conditions for small-craft operators, particularly on the northern and eastern coastlines. These conditions may become even more adverse at times of high tide. Therefore, **only vessels capable of withstanding swells of these magnitudes should venture out. Sea-bathers are advised to stay out of the water.**

Upcoming High-tide times:

**Sunday** 03:14 am and 04:42 pm

**Monday** 04:11 am and 05:47 pm

**Tuesday** 05:14 and 06:45 pm

This advisory will be discontinued at 6:00 pm Tuesday 3<sup>rd</sup> March 2026 or sooner if conditions improve. It may also be extended if conditions warrant.
