---

**SMALL CRAFT AND HIGH SURF ADVISORY IS IN EFFECT**  
**FOR ST VINCENT AND THE GRENADINES**

**Issued at 12:00 Noon, Friday 6<sup>th</sup> March, 2026**

The Small-craft and High Surf Advisory remains in for St Vincent and the Grenadines and its coastal waters until further notice.

A Small-Craft Advisory is issued when sustained winds of 37 to 46 km/h (23 to 29 mph) and/or sea swells of 2.5 to 3.0 meters (8 to 10 feet) are affecting or forecast to affect the marine area within the next 36 hours.

A High Surf Advisory is issued when breaking wave action is forecast to pose a threat to life and property within the surf zone during the next 36 hours.

Large waves and dangerous rip-currents are creating unsafe conditions for small-craft operators, particularly on the northern and eastern coastlines. These conditions may become even more adverse at times of high tide. Therefore, **only vessels capable of withstanding swells of these magnitudes should venture out. Sea-bathers are advised to stay out of the water.**

Upcoming High-tide times:

**Friday** (Today) 09:00 pm

**Tuesday** 10:13 and 09:37 pm

**Sunday** 11:05 am and 10:14 pm

**Monday** 11:46 am and 10:50 pm

This advisory will be updated as necessary.
