SMALL CRAFT AND HIGH SURF ADVISORY IS EXTENDED
FOR ST VINCENT AND THE GRENADINES

Issued at 12:00 Noon, Tuesday 12th December, 2025

The Small-craft and High Surf Advisory is extended for St Vincent and the Grenadines and its coastal waters **until 6:00 pm Friday 12th December, 2025.**

A Small-Craft Advisory is issued when sustained winds of 37 to 46 km/h (23 to 29 mph) and/or sea swells of 2.5 to 3.0 meters (8 to 10 feet) are affecting or forecast to affect the marine area within the next 36 hours.

A High Surf Advisory is issued when breaking wave action is forecast to pose a threat to life and property within the surf zone during the next 36 hours.

Large waves and dangerous rip-currents will continue to create unsafe conditions for small-craft operators, particularly on the northern and eastern coastlines. These conditions may become even more adverse at times of high tide. Therefore, **only vessels capable of withstanding swells of these magnitudes should venture out. Sea-bathers are advised to stay out of the water.**

Upcoming High-tide times:

Tuesday (today) 11:28 pm

Wednesday 09:42 am

Thursday 12:04 am and 10:34 pm

Friday 12:40 am and 11:27 pm

This advisory may be discontinued at 6:00 pm Friday 12th December 2025 or sooner if conditions improve. It may also be extended if conditions warrant.
