SMALL CRAFT ADVISORY REMAINS IN EFFECT FOR ST VINCENT AND THE GRENADINES

Updated at 12:00 Noon, Wednesday 4th December, 2024

A Small-craft Advisory remains in effect for St Vincent and the Grenadines and its coastal waters **until 12:00 Noon Thursday 5th December, 2024.**

A Small-Craft Advisory is issued when sustained winds of 37 to 46 km/h (23 to 29 mph) and/or sea swells of 2.5 to 3.0 meters (8 to 10 feet) are affecting or forecast to affect the marine area. Large waves and dangerous rip-currents will create unsafe conditions for small-craft operators, particularly on the northern and eastern coastlines. These conditions may become even more adverse at times of high tide. Therefore, **only vessels capable of withstanding swells of these magnitudes should venture out. Sea-bathers are also advised to stay out of the water.**

High-tide is expected near 7:55 am tomorrow, Thursday 5th December 2024.

This advisory will be discontinued at 12 Noon Thursday 5th December or sooner if conditions warrant.
