

**A SMALL CRAFT AND HIGH SURF ADVISORY IS IN EFFECT
FOR ST VINCENT AND THE GRENADINES**

Issued at 12:00 Noon, Monday 9th June, 2025

A Small-craft and High Surf Advisory is in effect for St Vincent and the Grenadines and its coastal waters until 6:00 am Thursday 12th June 2025.

A Small-Craft Advisory is issued when sustained winds of 37 to 46 km/h (23 to 29 mph) and/or sea swells of 2.5 to 3.0 meters (8 to 10 feet) are affecting or forecast to affect the marine area within the next 36 hours.

A High Surf Advisory is issued when breaking wave action is forecast to pose a threat to life and property within the surf zone during the next 36 hours.

Large waves and dangerous rip-currents will create unsafe conditions for small-craft operators, particularly on the northern and eastern coastlines. These conditions may become even more adverse at times of high tide. **Therefore, only vessels capable of withstanding swells of these magnitudes should venture out. Sea-bathers are advised to stay out of the water.**

Upcoming High-tide times:

Monday: 04:09 pm

Tuesday: 04:46 pm

Wednesday: 05:24 pm

Thursday: 06:05 pm*

This advisory may be discontinued at 6:00 am Thursday 12th June, 2025 or sooner if conditions improve. It may also be extended if conditions warrant.
